

VERTICAL RACK

A cost effective way of storing all those long and awkward items.

Our vertical racking is derived from our Heavy Duty Midspan system. The system comes as a starter and extension bay format meaning long runs are more cost effective.

The bays come with 3 dividers, all necessary frames and base plates, two front beams and one back beam and base rail. Other size racks available to order, please contact the sales office.

- **Great value for money**
- **Store all your long awkward items**
- **Quickly gets your storage organized**
- **Simple to build and reconfigure**
- **Fully adjustable hoop dividers**
- **Starter and extension bay system**
- **Can be secured to the floor**
